# Online short courses

---

The following 12-week online courses are now available:

- Advanced Human Genetics
- Analysis of Nucleic Acids
- Antibiotics
- Applied Haemostasis and Thrombosis
- Blood Film Morphology
- Blood Transfusion
- Change Management in Healthcare Settings
- Chromatography-Mass Spectrometry Analysis
- Clinical Data Interpretation
- Diabetes and the Clinical Laboratory
- Diagnosis of Breast Cancer
- Diagnostic Haemostasis and Thrombosis
- Genomics
- Governance and Risk Management
- Haematological Malignancies
- Haemoglobinopathies
- Haemolytic Anaemias
- Healthcare Law and Ethics
- Immunocytochemistry in Diagnostic Cellular Pathology in Healthcare Settings
- Lung Disease
- Management of Healthcare Associated Infection
- Managing Learning and Development in Healthcare
- Medical Mycology
- Parasitology

- Point of Care Testing
- Quality Systems Management
- Renal Disease
- Robotics and Automation (in Laboratory Science)
- Sexually Transmitted Infections

**More courses coming soon including:**

- Blood Group Serology
- Inborn Errors of Metabolism
- Medical Laboratory Statistics
- Mohs Micrographic Surgery and Histological Laboratory Procedures

## Who for?

- Biomedical scientists
- Clinical scientists
- Laboratory, hospital and health service managers
- Healthcare professionals, including nurses, pharmacists and medical technical officers
- Quality managers
- Health and safety managers
- Risk and governance managers.

## Course content

Each course involves guided online study and comprises two components:

**Workshop 1:** an introduction to e-learning, your tutor and your course

**Workshop 2:** course consolidation.

## We offer

- A high level of student support (typical tutor:student ratio of 1:10)
- Courses approved for CPD by the Institute of Biomedical Science, the leading body for those working in the field
- Our courses offer you a flexible, practical way to learn, for CPD or towards a PG Cert, PG Dip or full MSc.

## Key facts

### Attendance:

12 weeks (online) starting in April and October

### Entry requirements:

These courses are aimed at employees across the health sector. You may already have a qualification in a science such as biology, biochemistry, chemistry or pharmacy at a range of levels, from HNC or BSc to PhD.

### Qualifications:

Each of our online short courses is worth 30 credits at FHEQ Level 7 (Master's level). You can complete four online short courses plus a workplace-based project in up to seven years for an MSc accredited by the Institute of Biomedical Science.

We also offer Postgraduate Certificates for successful completion of two online courses, or a Postgraduate Diploma for four courses. Please see our website at [www.biomedonline.co.uk](http://www.biomedonline.co.uk) for details of the course options for

our programmes in Biomedical Science, Haematology, Healthcare Management and Healthcare Quality Management.

## How to apply

To make a booking, or to find out more, please contact us:

E-mail: [biomedoffice@gre.ac.uk](mailto:biomedoffice@gre.ac.uk)

Website: [www.biomedonline.co.uk](http://www.biomedonline.co.uk)

## Fee information

The schedule of fees is available at [www.biomedonline.co.uk](http://www.biomedonline.co.uk). A discount is available for members of the Institute of Biomedical Science and students who work at an organisation that is part of the BioMed Online Consortium (please see our website for the Consortium members). BioMed Online also offers part scholarships for individual courses. Please see our [FAQ page](#).

## Student comments

“ Being able to complete the study while doing my job has been a major advantage of this programme. The course was well structured, with a highly professional tutor. I have learnt a lot from the course as it has prepared me for a new role that I have undertaken in my place of work. I highly recommend it.

### Mohammad Algahtani

Medical Services, Ministry of Interior  
Saudi Arabia

“ I completed the Quality Systems Management course. The major advantage of this course is that there is a good mixture of theory and discussion with course colleagues, as well as practical laboratory related activities. It helped me hugely as well as the place where I work.

**Miguel Everisto**

Lewisham and Greenwich NHS Trust

“ I thoroughly enjoyed this course as it broadened my knowledge and was engaging through chat discussions and activities. It allowed me to balance work, home life and (study for) this module. The course content related to work-based practice and allowed us to build on our knowledge to level 7 standard. The course tutor was approachable and always happy to help.

**Sadia Ahmed**

Specialist Biomedical Scientist  
The Christie Pathology Partnership

“ The tutor has a superb knowledge base in the subject. The discussion both in the chats and online forums provide good communication and therefore shared learning for the students on the module.

**Jayne Baker**

Senior Specialist Biomedical Scientist  
Royal Devon and Exeter  
NHS Foundation Trust

“ The assignments were varied and enabled me to apply the knowledge and skills learnt to my job role. The 12-week course allows you to work alongside studying and my tutor was very supportive and knowledgeable.

**Paul Robinson**

Senior Biomedical Scientist  
The Doctors Laboratory
