This 12-week course, starting in April and October has been designed for:
- biomedical scientists wishing to get a broader knowledge of automation and robotic systems in pathology;
- those wishing to gain experience in the evaluation of robotic systems;
- those wishing to gain management experience in the evaluation, purchase and evaluation of automated and robotic systems;
- medical students and clinicians moving into pathology departments.

Course content
The course comprises two components.

Two face-to-face workshops held at Greenwich Campus:
- Workshop 1: an introduction to WebCT, your tutor and your course;
- Workshop 2: course consolidation.

Guided online study of the following seven topics:
- automation in pathology;
- pre-analytical systems;
- total laboratory automation;
- the planning process;
- communication;
- installation and evaluation;
- a look into the crystal ball.

Want to know more?
- Booking forms available on the website, please log on to www.gre.ac.uk/biomed
- e-mail the Biomed Administration Manager at biomed@gre.ac.uk
- telephone on 020 8331 9978.

Study where you want, when you want, supported online by a tutor
- take an accredited short course.
- Gain 30 credits at Master’s level.
- Gain 100 CPD credits for portfolio and registration.
- Can be used towards our MSc in Biomedical Sciences (Online), accredited by the Institute of Biomedical Sciences (IBMS).

Biomed courses train you to:
- use Internet-based applications;
- make effective presentations;
- use real-time chat rooms and discussion groups to support reflective learning.

Biomed courses offer you:
- online support from specialists in the field;
- online access to fellow students;
- self-assessment and quizzes to support your progress;
- rapid, meaningful feedback.

The course is accredited by the IBMS.

Other online courses
- Analysis of Nucleic Acids
- Bioinformatics
- Blood Transfusion
- Diagnosis of Breast Cancer
- Gene Structure and Function
- Implementing Advanced Quality Management
- Lung Disease
- Management of Healthcare Associated Infection
- Point of Care Testing
- Quality Systems Management
- Renal Disease
- WebCT Training for Course Creators
- Robotics and Automation
